

ANSH GOYAL

B.E. Computer Science & Engineering · Chitkara University

goyalansh.in@gmail.com | linkedin.com/in/anshgoyal05 | github.com/anshgoyal05 | anshgoyal.live | +91 7404508326

ABOUT

Computer Science Engineering student specializing in Full-Stack Development (MERN Stack), AI-powered applications, and scalable software systems. Built end-to-end projects using the MERN stack (MongoDB, Express.js, React, Node.js), Next.js, FastAPI, PostgreSQL, Docker, TensorFlow, and OpenCV, with one year of hands-on OOP programming experience and a strong foundation in data structures and algorithms.

EXPERIENCE

Member - Chitkara Enterprise Lab

Jan 2026 – Present

Chitkara University · Solan

→ Engaging in startup-focused learning, innovation programmes, and entrepreneurial development initiatives, transforming ideas into practical solutions with industry mentorship.

Vice Chair - ACM Student Chapter

Jul 2026 – Present

Chitkara University ACM Student Chapter

→ Serve on the executive leadership team, setting chapter strategy and overseeing technical programming across 12+ events attended by 500+ students.

→ Coordinate student volunteers and technical teams to deliver hackathons, workshops, and coding competitions.

PROJECTS

CivicSync - AI-Driven Urban Grievance Prioritization & Accountability

github.com/anshgoyal05/CivicSync

Next.js · FastAPI · PostgreSQL · Docker · Python · Machine Learning · TypeScript

→ Led a hackathon team building a full-stack AI grievance platform (Next.js, FastAPI, PostgreSQL, Docker) that automates complaint prioritization and department routing using machine learning.

→ Implemented analytics dashboards, workflow tracking, and role-based access controls to improve transparency and accountability.

RescueNet - Missing Persons Identification Platform

github.com/anshgoyal05/RescueNet

MERN Stack (MongoDB, Express.js, React, Node.js) · OpenCV · TensorFlow · JavaScript · TypeScript

→ Built an AI-powered missing-person identification platform on the MERN stack with OpenCV and TensorFlow for facial similarity matching.

→ Designed a client-server architecture (Express.js/Node.js backend, React frontend, MongoDB storage) supporting image uploads, feature extraction, and real-time matching.

Attendance-App - Attendance Tracking & Analytics Platform

github.com/anshgoyal05/attendance-app

Next.js · Prisma · PostgreSQL

→ Built a full-stack attendance tracking platform with Next.js, Prisma, and PostgreSQL, featuring automated attendance logging and an analytics dashboard.

→ Added PDF/Excel export functionality for streamlined attendance reporting.

Infra Horti Event Expo

github.com/anshgoyal05/infra-horti-event-expo

React 19 · Vite 8 · React Router 7 · Node.js · Express.js · SQLite3 · JWT (JSON Web Tokens) · CSS3

→ Built a full-stack web portal showcasing university events, infrastructure, and a nursery database using a React SPA frontend and a Node.js/Express API, secured with JWT authentication and featuring a comprehensive admin dashboard.

CaptivatingJourneys - Multi-Destination Travel Website

github.com/anshgoyal05/CaptivatingJourneys

HTML5 · CSS3 · Python

→ Built a 40+ page responsive travel portal covering Rajasthan, Kashmir, Chandigarh, and Himachal, using semantic HTML and modular, reusable CSS components.

EDUCATION

Bachelor of Engineering - Computer Science & Engineering (BECSE)

Aug 2024 – Jun 2028

Chitkara University, Himachal Pradesh (CGPA – 9.16)

Senior Secondary - Non-Medical (PCM)

Jul 2022 – May 2024

Sunrise Public School Banaundi, Ambala

CERTIFICATIONS & ACHIEVEMENTS

Develop Natural Language Solutions in Azure (Microsoft, Jun 2026) · Data Structures & Algorithms in Java & Python · Elements of AI (MinnaLearn) · Python Programming & Design Thinking (Infosys Springboard) · Student Symposium 2025 · ChitkaraVerse 2026 · HackIndia 2026

SKILLS

Languages: Python, Java, C, C++, JavaScript, TypeScript, HTML5, CSS3

Full-Stack / Frameworks: MERN Stack (MongoDB, Express.js, React, Node.js), Next.js, FastAPI, OpenCV, TensorFlow

Tools & Databases: Git, GitHub, Docker, Linux, VS Code, npm, MongoDB, PostgreSQL

Concepts: OOP, Data Structures & Algorithms, DBMS, Computer Networks, Machine Learning, NLP, REST APIs

Cloud: Microsoft Azure

Leadership & Languages: Team Leadership, Event Management, Mentoring · English (Professional), Hindi (Native)
